

## SHAME

A TERRIFIC DRAMA OF FOUL PLAY.

PART TWO

WAKE UP, DADDY—I THINK THEY ARE COMING!

LET'S SIT RIGHT DOWN, FOLKS!

CAUSE ME, JUDGE, COULD AN SEE 'O' FER A MINUTE, SUH?!!

RUINED—YAS SUH—ABSOLUTELY RUINED!!

OH, JAZZBO!

BAD NEWS, PEOPLE!! THE COOK HAS SPOILED OUR CHICKEN DINNER FOR US!!

OH, WHAT A SHAME!!

## OLD TERS ARE PLUING LARG WITH RECORDS

Younger Bowlers at Cactus Club Unlucky Against Returning Vets.

## RIDLEY'S STREAK COMES LIKE FLOOD

MATTHEWSON DOES NOT PITCH GAMES

NEW YORK, Feb. 14.—There may not be a pitcher in the major leagues this year, but on the face of it there appears to be a rejuvenation of the older members up to summer heat. Several who have been looked on as old men and others about whom "has been" was whispered, are beating everything in sight.

It comes, too, in a season which has developed into the best for several years. The mark made by the Southern Motor team against Wals was 3020, the best made for five years. Then there is J. M. Ridley, who has been training for several years and when it was least expected broke out into championship form. Each week for three weeks he has shot up to where it makes an ordinary bowler dizzy to look down at his score. He has bowled 419 one week, 466 another, and 474 another—all in a row.

Looks like it's up to some of the older members to take some pointers in the game. Maybe that's what the older men have been doing on the side for awhile. Possibly they have been studying some of the "dicks" of Jimmie Smith, believed by many to be the champion of champions in bowling. As Smith's hints may be of use to some of the younger bowlers, we give them.

Don't lose your patience or temper. Don't try to learn in a day. Don't forget practice makes perfect.

Don't start the ball from the center of the alley. The right side is the proper place.

Don't try excessive speed until you have learned control.

Don't watch your opponent or his work.

Don't get discouraged at a poor start. Keep your nerve.

Don't try spinning the ball until you have mastered the ball.

Don't use a loaded or doct ball.

Don't gamble on the result of a bowling game.

If a bowler will keep these don'ts in mind and live up to them he will be a bowler.

Don't pick and choose. Be able to hold his own with the average bowler with sufficient practice.

Don't be content with success.

Don't make the following complimentary remarks about the game which are encouraging to those who seek development and recreation in the game:

"The average man, I do not believe, should try to become a star bowler but should be content with getting a whole lot of beneficial exercise from the game. Elbowing a man cherishes such an ambition few would develop a proficiency that would result in success."

"But for good health, for recreation which relieves the mind of worry, for an exercise which is the happy medium of the strenuous indoor games, bowling is the game."

"Big corporations realize this, and many have built club houses equipped with bowling alleys for their employees."

"Bowling brings almost every muscle into play. I have never known of a consistent bowler to develop appendicitis. The reason is that abdominal muscles are strengthened."

"I have seen many men build themselves up into a fine specimen of regular bowling."

"As a relaxation for the tired worker or business man I know of nothing better. A few games are not tiring and the exhilaration sends a man home refreshed, his mind clear, his body strengthened ready for another day of shop or office."

"The man who bowls with care should not bowl to excess. Excessive bowling, like any other exercise, is tiring, and the beneficial effects will be lost."

"I do not find that I need other exercise than bowling to keep in condition."

"I play a little handball at times because I like it."

"To bowl well, a man can not dispense. A clear head, steady nerve and sure eye are necessary."

## BENCH POSSES ARE FOUND TO BE EFFECTIVE

Active Work of Managers on Teams Is Becoming Thing of Past.

## Tricks in Every Trade But Ours

Nearly All Great Boxers Generous Towards Opponents; Many Victories Due to Psychological Trickery; Attempts Often Fail.

By ROY ENIK

LONG in the 11th round when an opponent is dropping bombs around a boxer's jaw, jabbing like a machine gun and occasionally sending in a torpedo down about the solar plexus, it does seem that boxing is a bit rough. Very few rules govern the boxer's conduct in the ring, and he is free to use whatever tactics he wishes.

For the Tigers, Ponford threw a couple of sensational goals from the center of the field. Lapowski also played in his usual good form. It cannot be said that the high school team was brilliant, because the Mines did not give them opposition enough to make a good tryout. Although Ponford, center, was largely responsible for the victory, he was not the only player to show up.

As a player, Lapowski was a star in his prime. As a coach of young players he was invaluable to Connie Mack. Though he did not get much credit for the youngsters developed in the Mackian camp, he was largely responsible for the victory, he was not the only player to show up.

## Outdoor Tennis Champs Named

No Important Changes Made at Meet Except Privileges to Girls.

By ROY ENIK

NEW YORK, Feb. 15.—The clay court championships were awarded to the western association to be played at Chicago, and the national junior championships to the West Side club at Forest Hills, N. Y. The national indoor championships for 1915, junior, boys', men's and women's went to the seventh regiment, New York city.

Officers elected included: President, Maj. George T. Allen. (Continued on next page.)

How Fits Won.

The principle used in the same as that by which Robert Fitzsimmons won most of his hard fights. Any boxer becomes used to a certain set of blows when repeated. Then an opponent who is not used to the set of blows will be surprised when he is hit by a blow which he has not expected.

Robert Fitzsimmons was a boxer who was used to a certain set of blows when repeated. Then an opponent who is not used to the set of blows will be surprised when he is hit by a blow which he has not expected.
